INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY COMPANY, publishers of Southeastern Directories, (publishers of the Goldsboro City Directory since 1906) present to subscribers and the general public, this, the 1962 edition of the Goldsboro City Directory, which also includes Adamsville.

Confidence in the growth of Goldsboro's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Goldsboro to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Goldsboro Directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments

The five major departments are arranged in the following order:—

I. THE BUYERS' GUIDE constitutes the first major department, printed on goldenrod paper, and contains the advertisements of leading manufacturing, business and professional interests of Goldsboro. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Goldsboro, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

II. THE CLASSIFIED BUSINESS DIRECTORY is the second major department, printed on canary paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such, it plays an important part in the daily activities of the commercial, industrial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

III. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns, is the third major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Goldsboro, and the name, official personnel, nature and address of each firm and corporation in the community.

IV. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the fourth major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

V. THE NUMERICAL TELEPHONE DIRECTORY is the fifth major department, printed on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information the publishers have placed copies of this issue of

the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Goldsboro and vicinity.

The Goldsboro Out-Of-Town City Directory Library

Through the courtesy of the publishers of the Goldsboro City Directory, a Directory Library is maintained in the offices of the Goldsboro Chamber of Commerce, for free reference by the general public. This is one of more than 1,000 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

GOLDSBORO

"THE HEART OF EASTERN NORTH CAROLINA"

(Courtesy Goldsboro Chamber of Commerce)

Location and Topography—Goldsboro, a city with an estimated population of 31,100, is 52 miles southeast of Raleigh, the state capital, 89 miles north of the port city of Wilmington and 97 miles northwest of the port of Morehead City. The city is halfway between New York and Jacksonville, Florida, approximately five hundred miles from each.

Wayne County, of which Goldsboro is the county seat, has an area of 555 square miles. It lies wholly within and is the approximate center of the Coastal Plains section of the state, one of the great agricultural areas of the United States. The topography is flat to gently rolling and averages approximately 104 feet above sea level.

The Neuse, Northeast Cape Fear and Little Rivers, as well as a half dozen creeks, drain the county.

Climate—The annual mean temperature is 61.3 degrees ranging from an average of 42.8 degrees in January to 79.7 degrees in July. Rainfall averages approximately 49 inches annually. Snow is seldom seen.

The date of the last killing frost in the spring is April 1, the first in the fall is November 4. The length of the growing season is 217 days.

Taxes and Fiscal Policies in North Carolina—North Carolina has sound and economical fiscal policies. The tax administration machinery insures fair and equitable enforcement without discrimination. The budgetary control system is unexcelled. There is no way for the State to create a legal deficit.

The Governor is directed by law to reduce the appropriations to the extent that revenues fail to meet requirements. The State may not borrow in excess of 2/3 of the amount of debt retired during the preceding biennium without the authorization of the voters. Local governments are similarly restricted to 2/3 of the amount retired during the preceding fiscal year. The Local Government Commission supervises the issuance of all local governmental bonds.

In order to compare the tax structure of North Carolina with other States, it is necessary to consider total State and local taxes. The responsibility of financing public schools and roads rests on the State. Thus, State taxes constitute a greater portion of all State and local taxes than is the case in most States. This results in efficiency, economy, more uniform services and a reasonable local tax bill. Interstate comparisons are misleading, but experience shows that tax costs calculated for N. C. specific plant sites with specific data as to size, type, and financial characteristics compare quite favorably with other Southeastern States.

Reasonable tax treatment of businesses and industry is a fixed policy. The franchise tax on corporations has been lowered to ease the tax load on business, and the intangible taxes have been adjusted downward for the same purpose. State tax rates on corporations have not been raised during the last 20 years. The 1953 General Assembly created a Tax Review Board. The 1957 General Assembly modernized the tax laws and adopted a set of allocation rules for multi-state businesses which fosters the development of regional distribution centers as well as a continuation of the growth of manufacturing concerns.

Major Sources of State Revenue: There is no State Property Tax.

1. Gross retail sales tax (3 %). Industrial machinery, equipment, parts and accessories (1 %). Limit of \$80 on a single item. Coal, coke and fuel oil (1 %). Raw materials, containers, labels, wrapping and shipping materials exempt.
2. Income tax on individuals and corporations limited by State Constitution.
3. Gross receipts tax on utilities and insurance companies.
4. Beverage taxes on beers and liquors.

Minor Sources of State Revenue:

1. Classified property tax on intangibles.
2. Franchise tax on business corporations.
3. License fees and earnings.
4. Gasoline tax—solely for highway maintenance and construction.

5. Equipment and supplies subject to wholesale rate of 1/20 of 1 % if purchased in North Carolina.

Retail Trade—Goldsboro has the finest shopping facilities east of Raleigh. Its modern stores and shops offering quality merchandise and wide business streets with excellent parking facilities draw shoppers from miles around. Retail sales in 1959 totaled \$46,330,000, 14th highest in the state.

Financial Institutions, Goldsboro, N. C.

The financial institutions in Goldsboro consist of three State Banks, one Savings and Loan Association, and one Building and Loan Association, listed below:

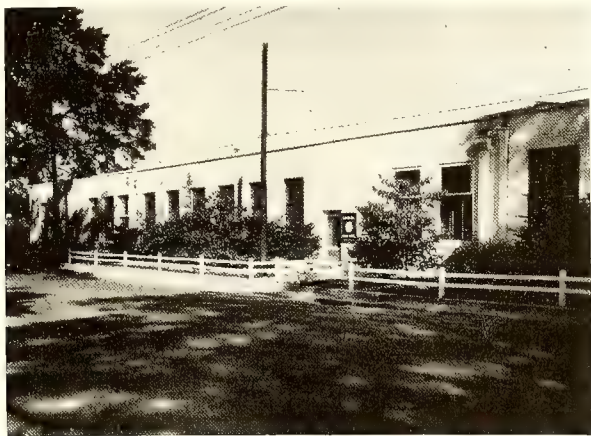

First-Citizens Bank & Trust Company..... Bruce Duke, Vice Pres.
Branch Banking & Trust Company.....C. F. Dees, Sr. Vice Pres.
Wachovia Bank & Trust Company..... Lawson Withers, Sr. Vice Pres.

Citizens Savings & Loan Association J. G. Campbell,
Exec. Vice Pres.

Goldsboro Savings & Loan Association.....Murray Borden,
Exec. Vice Pres. and Treas.

<u>Name of Bank</u>	<u>Total Resources</u>	<u>Member of Federal Reserve System</u>
First-Citizens Bank and Trust Company	\$263,930,495	No
Branch Banking and Trust Company	120,411,029	No
Wachovia Bank and Trust Company	806,205,634	Yes

These three banks represent the largest banking institutions in the state of North Carolina with resources of nearly \$1,200,000,000. In addition to the ability and know-how of the local staffs of these banks, we have access to the many specialists employed by these banks. We can avail ourselves of special financial services which are only offered by institutions possessing substantial resources. Naturally the resources shown above are not generated in Goldsboro alone but include combined deposits and net worth of all of the offices of these various banking institutions. This is a definite advantage since available credit for new industry and commerce is not limited to funds generated in our local economy. A local borrower with a request justified by sound banking principles may borrow up to the maximum amount which any one of these banks is permitted by law to lend.

ONE OF MANY SMALL DIVERSIFIED MANUFACTURING PLANTS

Twenty-one companies, all approved by the North Carolina Fire Insurance Rating Bureau, give the county almost 100 % fire protection coverage. Wayne County's improvement is reflected in a consistent downward trend in rates.

Special Training: In order to maintain his membership, each volunteer fireman must take, and pass, a fire fighting course put on by the State Insurance Commission. The course includes such subjects as how to enter a burning building, how water should be applied to various types of fires, how to use different types of fire fighting equipment and how to use ventilation of a building to help extinguish a fire.

The building has an indoor pool, gymnasium, banquet room, several meeting rooms and provides office space for the Boy and Girl Scouts, Red Cross and United Fund. A recreation field, one and one-half miles from the building has baseball and softball diamonds, football field and an outdoor basketball court. The Boys Club, with a full time director, recently purchased a spacious residential home, and carries out a well-rounded recreational program for its many members.

The city of Goldsboro has a recreation commission with five members.

The Colored Community Center has a large meeting hall and gymnasium combined, meeting rooms and a full time director.

Herman Park, 19 acres, has six tennis courts, playground equipment and amusement rides. In addition, three white and three colored schools have playgrounds with equipment.

The "Cliffs of the Neuse" State Park, located 13 miles southeast of Goldsboro, is a very popular recreation spot for the people of this area. There are 312 acres in the park with paved roads, trails and paths leading to all parts of it. Chief attraction is the view from the 98 feet high cliffs. There are several picnic areas with outdoor fire places. A lake for fishing and swimming was completed in 1955.

There are three lakes for swimming, besides the indoor pool, located five to twelve miles from the city; four theatres, including one colored, with seating capacity of 2,035 and two drive-ins with car capacity of 450; five billiard parlors with twenty-four tables, an 18-hole golf course; country club; two stadiums: Goldsboro High School and the Goldsboro Municipal Stadium.

Hunting and fishing are popular sports for Goldsboro residents. Fishing is excellent in the nearby Neuse and Little Rivers, bass, brim, rock, robbin and catfish. For the hunter there are rabbits, squirrel, quail and foxes.

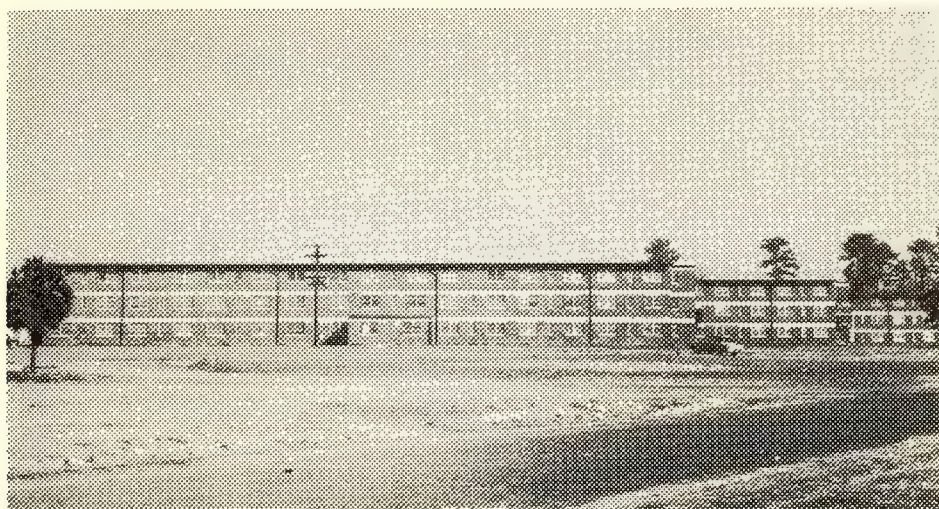

North Carolina beaches are only two hours away. Fishing and hunting are excellent along the coast and boating is a popular sport in the protected sounds and on the ocean.

Seymour Johnson Air Force Base

Seymour Johnson, a training base during World War II, was reactivated April 9, 1956. It falls under the command of the Ninth Air Force and is part of Tactical Air Command.

The main unit at Seymour Johnson is the 4th Fighter Wing which has three groups and twelve squadrons. The 482nd Fighter Interceptor Squadron of the Air Defense Command, the Strategic Air Command and 19th Air Force Headquarters are tenant units at the base. The estimated military strength is 6,000.

Practically all of the temporary buildings constructed during World War II have been replaced with permanent type. Approximately \$100,000,000 has been expended for new construction and it is expected that considerable more will be spent within the next few years to make Seymour Johnson the most modern base in the country.

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

CRUMPLER SECRETARIAL SCHOOL

1007 E. Walnut, Goldsboro

Phone 734-3641

One of the biggest problems confronting businessmen in these years of growth and development is filling the demand for competent secretaries, accountants and office workers.

The Crumpler Secretarial School, established since 1941 is licensed by the State Board of Education and bonded for the protection of students. This institution is helping to fill this demand by capably training hundreds of young people to fill these positions. They offer complete secretarial, stenographic, bookkeeping and accounting courses as well as a free employment service. Convenient evening classes are offered for those who must "earn while they learn."

Nora A. Crumpler, President, a Teacher of Business Subjects since 1926 is always happy to advise you. So, if you are looking for a better-paying job, let this institution fit you for that position so that when "opportunity knocks" you'll be ready.

**Please! Do Not Lend Your
CITY DIRECTORY**

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers —the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

**OUT OF SIGHT! OUT OF MIND!
OUT OF BUSINESS!**

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

should appear in the Directory and the Directory should be in Every Store.

Besides its use to the storekeeper, it is a convenience the customer expects.

LATEST EDITION OF THE CITY DIRECTORY?**

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Out of Sight--Out of Mind

☆ Out of Business ☆

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

A STATEMENT OF ADVERTISING PRINCIPLES

1. **Good Advertising** — aims to inform the consumer and help him to buy more intelligently.
2. **Good Advertising** — tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. **Good Advertising** — conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. **Good Advertising** — recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

HILL'S GOLDSBORO

Directory of Householders, Occupants of Office Buildings and
Other Business Places, Including a Complete
Street and Avenue Guide

1962

INCLUDING ADAMSVILLE

Copyright 1962, by Hill Directory Company

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both side of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names. Figures in parenthesis denote old numbers.

The word street is not used in addresses. Where a designation av, cir, ter, etc. does not appear, the designation st is understood.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.

This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

CONSULT YOUR DIRECTORY FIRST

Don't Contribute to Counterfeiters KNOW YOUR MONEY!

Don't Be Fooled by Forgers KNOW YOUR ENDORERS!

The Government never redeems counterfeit money!

1. **KNOW YOUR MONEY!** Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. **COMPARE** a suspected bill with a genuine of the same type and denomination. Observe these things:

PORTRAIT *Counterfeit*—Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background.

Genuine—Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.

COLORED SEAL

Counterfeit—Saw-tooth points around rim are usually uneven, broken off.

Genuine—Saw-tooth points around rim are even and sharp.

SERIAL NUMBERS

Counterfeit—Poorly printed, badly spaced, uneven in appearance.

Genuine—Figures firmly and evenly printed, well spaced.

PAPER

Counterfeit—Generally has no silk threads, but these may be imitated by very small red and blue ink lines.

Genuine—Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. **RUBBING** a bill on a piece of paper will *not* prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. **CONSULT** an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. **REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.**

This information is reprinted from the U.S. Secret Service 32-page booklet, "KNOW YOUR MONEY", which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purchased for 10¢ each, or \$7.50 per 100 from the Superintendent of Documents, Government Printing Office, Washington, D.C.

A STATEMENT OF ADVERTISING PRINCIPLES

1. Good Advertising — aims to inform the consumer and help him to buy more intelligently.
2. Good Advertising — tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. Good Advertising — conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. Good Advertising — recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

Know Your Endorser

• The United States Secret Service has launched a "KNOW YOUR ENDORSER" campaign against check forgery to supplement its highly successful "KNOW YOUR MONEY" drive, which, over a period of six years, reduced the amount of counterfeit money in circulation by more than 97 per cent.

We can all cooperate in this long-pull educational program and thus eliminate the market for forged checks by making it dangerous and unprofitable for forgers to operate. Here are a few simple rules for those who cash checks and those who get them cashed.

If You Cash Checks for Others

1. DEMAND PROPER IDENTIFICATION. Remember that lodge cards, Social Security cards, auto licenses, letters and the like can be forged and stolen. A forger's credentials are often forgeries themselves. Proper identification can best be determined by asking yourself this question: "IF THIS CHECK IS RETURNED, CAN I FIND THE PERSON WHO GAVE IT TO ME?"
2. Always demand that the person cashing the check endorse it in *your presence*. Even though the check has been endorsed, insist that he endorse it again.
3. Do not cash checks that show any alteration of their face. Altered checks are usually forged checks.
4. If you are an employer and more than one employee of yours is empowered to cash checks, be sure that they initial every accepted check so that you can identify the person who cashed it.
5. You can safeguard your merchandise, your cash, and your profits from check forgers by following these simple rules every time you cash a check. Make these practices routine. Remember you lose if you cash a forged check.

If You Get Checks Cashed

1. BE SURE some member of the family is at home when checks are due to be delivered. Get the check as soon as it arrives.
2. PRINT your name clearly on your mail box. EQUIP your mail box with a lock if you have not done so.
3. CASH your checks in the same place each month. This will make identification easier.
4. DO NOT ENDORSE your check until you are in the presence of the person you will ask to cash it.
